Methodology

- The miles and taxes cost for each redemption is assessed, along with the one-way full fare price with SQ, and the best alternative we would have chosen.
- Where a redemption was booked at the pre-March 2017 award and tax rates, these have been updated to reflect the prevailing current rates currently in force.
- The round-trip price with SQ and The best alternative we have chosen is also assessed.
- Apart from one redemption (SIN-CPT-SIN), we booked all our awards as one-way tickets, however we appreciate most people will book a round-trip and so have assessed the miles value of each award sector against half the round-trip cost (even though we would rarely have been able to take advantage of this).
- Where we would have been willing to fly 3K (Jetstar Asia) or TZ (Scoot), we have included pre-payment for 1 bag, a meal and a drink in their fare.
