

COVID-19 HANDLING TASK UNIT

CIRCULAR LETTER NUMBER 13 YEAR 2022

ABOUT

HEALTH PROTOCOL FOR OVERSEAS TRAVEL PERFORMERS SPECIAL DOORS ENTERING BALI, BATAM, AND BINTAN IN THE *CORONA VIRUS* PANDEMIC *DISEASE 2019 (COVID-19)*

A. Background

1. That in order to follow up on the development of the situation of the spread of the SARS-CoV-2 virus in various countries in the world and efforts to restore the national economy, there will be relaxation of health protocols for foreign travel entering Indonesian territory through Bali, Batam, and Bintan 2. That relaxation of health protocols for foreign travel entering the territory of Indonesia through Bali, Batam and Bintan will be implemented through a special mechanism, it is necessary to have a special control mechanism to anticipate the spread of the SARS-CoV-2 virus.
3. That based on the considerations as referred to in number 1 and number 2, it is necessary to stipulate a Circular Letter concerning Health Protocols for Overseas Travelers Specially for Entrances to Bali, Batam, and Bintan during the *Corona Virus Disease 2019 (COVID-19)* Pandemic Period.

B. Purpose and Purpose

The purpose of this Circular is to implement health protocols for foreign travelers who enter Indonesian territory through entrances in Bali, Batam and Bintan. The purpose of this Circular is to monitor, control, and evaluate special mechanisms for foreign travelers entering Indonesian territory through entrances in Bali, Batam and Bintan in order to prevent an increase in COVID-19 transmission.

C. Scope

The scope of this Circular Letter is a Health Protocol for Foreign Travel Actors who enter the territory of Indonesia through entrances in Bali, Batam, and Bintan.

D. Legal Basis

1. Law Number 4 of 1984 concerning Outbreaks of Infectious Diseases;
2. Law Number 24 of 2007 concerning Disaster Management;
3. Law Number 6 of 2011 concerning Immigration;
4. Law Number 6 of 2018 concerning Health Quarantine;
5. Government Regulation Number 21 of 2008 concerning the Implementation of Disaster management;
6. Government Regulation Number 21 of 2020 concerning Large-Scale Social Restrictions in the Context of Accelerating Handling of *Corona Virus Disease 2019 (COVID-19)*;
7. Presidential Regulation Number 1 of 2019 concerning the National Disaster Management Agency, as amended by Presidential Regulation Number 29 of 2021 concerning Amendments to Presidential Regulation Number 1 of 2019 concerning the National Disaster Management Agency;

8. Presidential Regulation Number 82 of 2020 concerning the Committee for Handling *Corona Virus Disease 2019 (COVID-19)* and National Economic Recovery, as amended by Presidential Regulation Number 108 of 2020 concerning Amendments to Presidential Regulation Number 82 of 2020 concerning Committee for Handling *Corona Virus Disease 2019 (COVID-19)* and National Economic Recovery;
9. Decree of the President of the Republic of Indonesia Number 11 of 2020 concerning the Establishment of a Public Health Emergency of *Corona Virus Disease 2019 (COVID-19)*;
10. Decree of the President of the Republic of Indonesia Number 12 of 2020 concerning the Determination of Non-Natural Disasters Spreading *Corona Virus Disease 2019 (COVID-19)* as National Disasters;
11. Decree of the President of the Republic of Indonesia Number 24 of 2021 concerning Determination of the Factual Status of the *Corona Virus Disease 2019 (COVID-19)* Pandemic in Indonesia;
12. Regulation of the Minister of Law and Human Rights Number 34 of 2021 concerning the Granting of Immigration Visas and Residence Permits in the Period of Handling the Spread of *Corona Virus Disease 2019* and National Economic Recovery; and
13. Resolutions of the Limited Cabinet Meeting on March 7, 2022.

E. Understanding

1. Foreign Travel Actors, hereinafter abbreviated as PPLN are Indonesian citizens/WNA who have traveled from abroad in the last 14 days.
2. A special foreign traveler for Bali Entrance, hereinafter abbreviated as Bali Special PPLN, is a person who travels from abroad in the last 14 days and enters the territory of Indonesia through the international arrival gate located in Bali.
3. Overseas Travelers Special for Batam and Bintan Entrances, hereinafter abbreviated as PPLN Special for Batam and Bintan, is a person who travels from abroad in the last 14 days and enters Indonesian territory through the international arrival gate located in Batam or Bintan.
4. *Reverse-Transcriptase Polymerase Chain Reaction*, hereinafter referred to as RT-PCR, is a type of diagnostic test that detects viral genetic material originating from certain samples, such as the nasopharyngeal/oropharyngeal swab test, using *reverse-transcriptase* enzymes and *polymerase* chain reactions.
5. *Rapid* antigen test is a method of direct detection of protein or viral antigen by *lateral flow immunoassay* whose samples are derived from nasopharyngeal swab tests or other respiratory and oral secretion fluids.
6. Isolation is an effort to temporarily separate someone who is sick and requires COVID-19 treatment or someone who has confirmed COVID-19 based on diagnostic results, from healthy people with the aim of reducing the risk of transmission.
7. Health insurance is proof of ownership of health insurance to the insured to replace any costs for handling COVID-19 which includes costs for treatment, surgery, and medicines.
8. Vaccine certificate is a physical or digital document as proof that a series of vaccinations has been received.
9. A confirmed positive case of COVID-19 without symptoms is someone who is confirmed positive for COVID-19 and has no clinical symptoms.
10. A positive confirmed case of COVID-19 with mild symptoms is someone who is confirmed positive for COVID-19 with symptoms such as fever, cough,

fatigue, anorexia, shortness of breath, myalgia and other unspecified symptoms, without evidence of viral pneumonia or without hypoxia.

11. A positive confirmed case of COVID-19 with moderate symptoms is someone who is confirmed positive for COVID-19 with clinical signs of pneumonia such as fever, cough, shortness of breath, and rapid breathing without signs of severe pneumonia such as oxygen saturation below 93% in room air.
12. A positive confirmed case of COVID-19 with severe symptoms is a person who is confirmed positive for COVID-19 with clinical signs of pneumonia such as fever, cough, shortness of breath, and rapid breathing, accompanied by one of the symptoms, namely respiratory rate above 30 times per minute, distress heavy breathing, or oxygen saturation below 93% of room air.
13. Medical evacuation is an act of mobilization with medical emergency standards for people who are confirmed positive for COVID-19 based on RT-PCR examinations from an area to a treatment referral hospital.
